

# Nutrition Specialist

## PHARMA NORD

Pharma Nord is one of Europe's leading suppliers of preventative medical drugs and nutritional supplements, where promotion of a healthy lifestyle is vital. We strive to communicate the health-promoting properties of nutritional intervention with our quality products that are documented through scientific research.

We are currently looking for an ambitious **Nutrition specialist** for our Latvian office. You must have a strong interest within health and wellness and have the ambition and drive to develop together with the job and the company. An interest in food supplements and healthy lifestyle is an advantage.

### Job description

- Provide training and outstanding service to individual pharmacies, groups of health professionals and consumers.
- Market planning and reporting
- Implementation of the company's communication strategy.

Pharma Nord can offer a challenging and exciting job.

### Qualifications

The right candidate is outgoing, organized and eager to be tested in a professional and competitive environment. Being familiar with sales and promotion of niche products developed for the specialized trade, the candidate will be able to document good results from "customer evenings" and similar types of events.

The job requires a strong communicator with the ability to present the message with passion.

Fluent Latvian and good English and Russian language skills are required.  
Category B driver licence is also required.

### Application

Please send your written application together with your CV and other relevant information to Pharma Nord SIA, Kleistu iela 24, LV-1067 Riga, Latvia. Mark the envelope "**Nutrition specialist**".

Pharma Nord is one of Europe's leading manufacturers of preventative nutritional supplements and medical drugs. With its main office and production in Denmark and with 25 subsidiaries and 20 business partners abroad, Pharma Nord covers a large geographical scope. Pharma Nord's products are known and sold in Europe, in the Middle East, and on the rapidly expanding markets of Asia, Russia, and the United States.
